

EG 250

EFFICIENCY AND SAFETY WHEN LIFTING THROUGH THE CRANE

With capacity for 2 passengers (250 kg), this lift gives operators the greatest safety and comfort when rising by the crane, since it has a centrifugal brake and overspeed parachute.

Quick and easy to assemble, the EG 250 has a universal anchor for all types of tower cranes every 4,2 m.

Main features:

- **Load capacity:** 250 kg.
- **Cabin dimensions:** 1200 x 600 x 2050 mm.
- **Maximum speed:** 20 m/min.
- **Maximum height:** 120 m (ask us for greater heights).
- Valid for other applications such as wind mills.
