

PEC 90

MINIMUM SIZE, MAXIMUM UTILITY

All the elements of the PEC 90 have been designed looking for the greatest ease of transport and mobility.

This platform can be lifted up to 90 m by a tube mast, compatible with other ALBA hoists, an advantage for our clients in terms of investment and stock.

Main features:

- **Maximum length (twin mast):** 22,62 m.
- **Load capacity (twin mast):** 2100 kg.
- **Maximum speed:** 8,5 m/min.
- **Maximum height:** 120 m (ask us for greater heights).
